Experience

IT Attaché – Ministry of Environment and Forestry (3 months)

Provided technical support and assisted in daily ICT operations, troubleshooting hardware and software issues.

Supported system maintenance and ensured smooth functioning of office technology.

Business Development Intern – Kenya Orient Life Assurance Ltd (3 months)

Developed a responsive web-based quotation tool used in-office and remotely, improving efficiency in business development processes.

Identified and engaged potential clients through research, calls, and email outreach, building a strong sales pipeline.

Maintained client relationships through timely and effective communication, ensuring customer satisfaction.

Created presentation materials to educate clients and support product understanding.

Assisted in onboarding and training an intern, contributing to team productivity.

Safety Officer – World Rally Championship (FIA)

Led safety coordination across rally stages, supervising and positioning marshals to ensure compliance with FIA safety standards.

Planned and marked safety zones, managing crowd control for events involving large numbers of spectators.

Managed logistics for marshal teams, ensuring adequate food, hydration, and readiness during full-day operations.

Acted as a central communication point for safety issues, enabling rapid response during live rally stages.

Supported pre-event reconnaissance (recce) to ensure stage safety before driver runs.

Oversaw post-event stage breakdown and equipment accountability.
